ZEEKR

Inspired by a new realm of aesthetics,
and a new expression of luxury

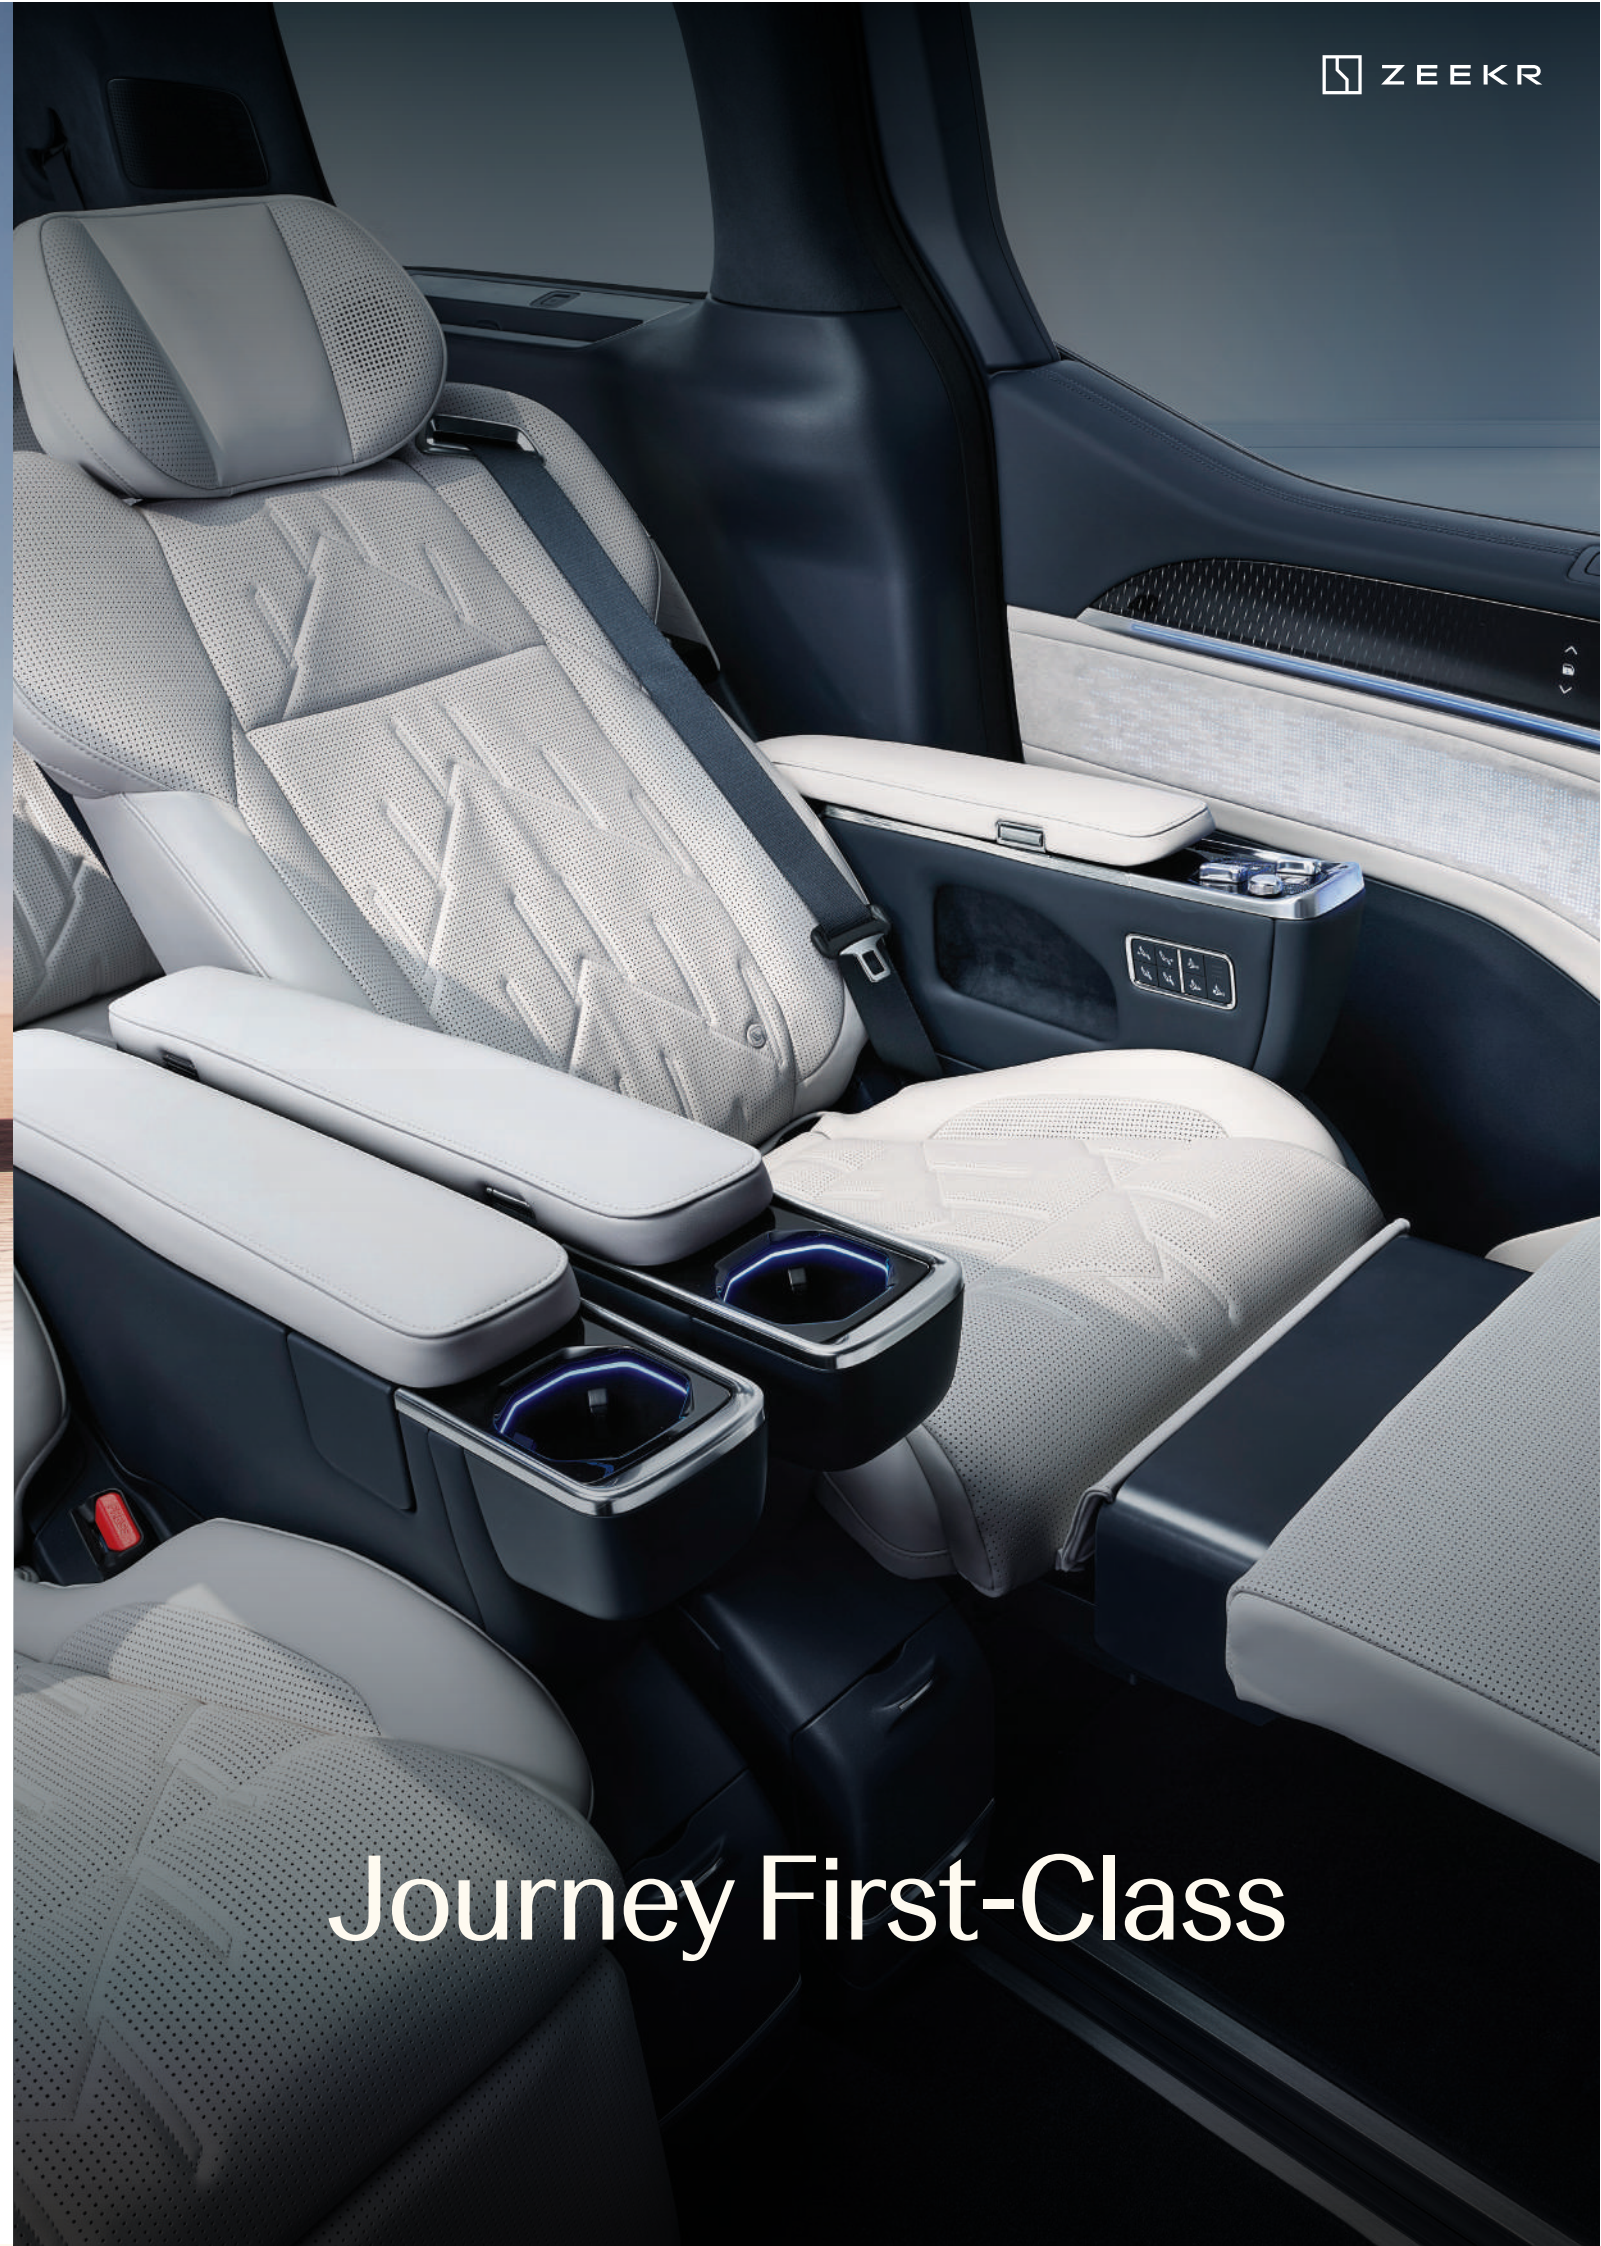

Introducing the world's most luxurious
pure electric MPV, seamlessly merging
sophisticated design, cutting-edge
technology, and superior comfort.

It's time to **reimagine luxury**

Journey First-Class

Designed for the ultimate luxury experience

Quiet, peaceful space

Across 7.4 square meters of generous interior space, the measurable noise inside the ZEEKR 009 is only 64.5dB when driving at 120km/h.

Ultra-low drag coefficient

Optimised from head to tail to achieve a low drag coefficient, increasing efficiency for long road trips.

Hidden dual A-pillar curved glass

The ZEEKR 009's windows create a beautiful front face while achieving a unity of functionality and aesthetics.

8.6L Cooling and Heating Refrigerator

Move the constant temperature refrigerator from home to the car, the only car refrigerator in the industry that can maintain a constant temperature.

Sofaro first-class airline seats

Made of soft NAPPA leather and equipped with an Eames lounge chair mode, concealed table, and dual temperature mode refrigerator.

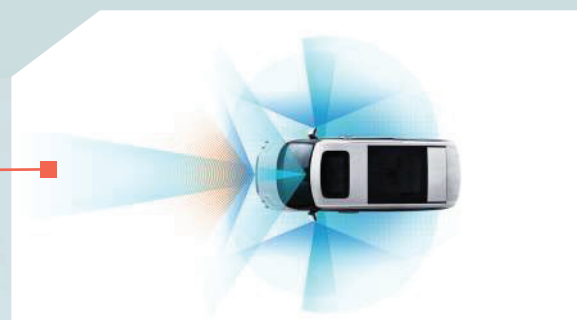

30 YAMAHA surround stereo luxury speakers

Immersive sound fills the 009 through 30 speakers, including 8 in-seat integrated headrest speakers.

Intelligent sensors

Seven 8MP HD cameras, four 2MP surround view cameras, and one 250m ultra-long range millimetre wave radar enable a full range of intelligent road awareness.

Intelligent multicolour lighting

Ceiling and side-door lighting form a rhythmic plane of light and shadow, creating a luxurious, atmospheric space.

Journey in comfort and guaranteed peace of mind

Intelligent cockpit

Based on dual-Qualcomm Snapdragon 8295 computing platform and equipped with a new multi-screen interactive ZEEKR OS system (HMI3.0)

Extra large capacity battery

A 116kWh battery allows for quick charging, from 10% to 80% in 30 minutes at 150kW DC

A commanding presence, combining power and intelligence

AI intelligent assistant

The intelligent language assistant is online at any time and activated by simply saying "Hi ZEEKR". It can control music, navigation, temperature, and other functions with voice commands.

High performance air suspension

Dual-chamber air suspension system with Intelligent Magic Carpet, CCD electromagnetic vibration reduction, and CST comfort braking provide an unparalleled level of comfort and handling precision.

Uncompromising Protection

720° all-round safety armour, multi-directional airbags, and 360° comprehensive collision warning systems envelop every passenger in total, complete protection.

Triangular-shaped double A-pillar design improves safety and lowers wind resistance, while aluminium side impact beams provide additional battery cushioning upon impact.

World's largest mass-produced, single-piece, die-cast aluminium rear end eliminates nearly 800 welding points, reducing deformation by 17%, and increasing sturdiness by 11%.
