2015 **MURANO®**

WELCOME TO THE 2015 NISSAN MURANO® DIGITAL BROCHURE

Full of images, feature stories, and all the specification and trim level information you need to help select your Murano®.

[Click here](#) to sign up for news and updates on the 2015 Murano®.

WHAT IF
YOUR CAR WAS A
CONVERSATION PIECE?

Imagine a crossover so modern and inviting, it speaks to the importance of good company. Introducing the all-new 2015 Nissan Murano®. At first glance, you notice an exterior of artfully sculpted sheet metal. But it's more than just a stunning first impression. The premium interior welcomes you with personal, purposeful technology and a uniquely spacious feel that everyone will want to get to know. And the cabin layout is designed for a collective experience, giving you every reason to stay and talk awhile. It certainly raises questions. Like, "Do we have to get out?" The all-new 2015 Nissan Murano®.

SHEET METAL IN THE KEY OF STUNNING.

Murano®'s striking exterior is inspired by the age of future flight, with an aerodynamic body that appears to be shaped by the forces of wind. We created a stunning profile with the signature floating roofline that seems to hover above the cabin, rear side pillars shaped to resemble a jet tail, and sleek boomerang lights that enhance the energetic flow. And when it all glides down the road on the available luminous 20" machine-finished aluminum-alloy wheels, your style meets the street.

Nissan Murano® Platinum AWD shown in Pacific Sunset with optional equipment.

Click the button to see a short video on Murano's premium interior, go to bit.ly/muranoint15

Seductive by design. Welcome to an interior that's an expression of serenity. To begin with, we've redesigned Murano's control panel to be simpler and more intuitive, nestled like a gem in the sculpted dash. Throughout the cabin, lit by the ambient glow of adjustable mood lighting,¹ you'll find thoughtful chrome accents and trim accents in Jasper Pearlescent or Brushed Silver complementing the Cashmere, Mocha, or Graphite interior.¹ And whether it's a hot day or an icy night, the cabin can be waiting for you at a pleasant 77°, thanks to the Remote Engine Start System² with Intelligent Climate Control.¹ Rear passengers enjoy seat heater controls,¹ plus a place to recharge their smartphone.¹ Meanwhile, above you, the expanded panoramic moonroof¹ stretching from front to back seems to breathe in light. An atmosphere this premium makes it easy to enjoy the journey – and might make your destination seem beside the point.

Nissan Murano® Platinum AWD shown in Cashmere Leather with optional equipment.

¹Available feature. ²State laws may apply; review local laws before using.

WELCOME TO ALL-SEAT DRIVE.

Murano® offers you and your passengers a chance to mingle in superior comfort. There's pleasure in the small things, like softer headrests with just the right amount of give. And in the big things, like front and rear Zero Gravity Seats, which use space-age technology to help provide continuous support from hips to back and help reduce fatigue, leading the way for more comfortable road trips.¹ Rear passengers can recline,² and activate their own Quick Comfort® heating³ – which warms you up in moments – by flipping the switch right next to their very own rear USB connection port.^{3,4} In addition to warm-ups, front seats can also cool you off.³ It's an elevated driving experience, for everyone on board.

¹Front seats and rear outboard seats only. ²Passengers should not ride in the reclined position while the vehicle is in motion. ³Available feature. ⁴Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation.

Nissan Murano® Platinum AWD shown in Cashmere Leather with optional equipment.

GENEROUS SPACE AT YOUR FINGERTIPS.

The space and flexibility of the Nissan Murano®'s interior also comes with a seamless way to use it. Rear-seat passengers can get in and out in a snap with easier ingress and egress. In back, you can increase your cargo volume to nearly 70 cubic feet when you collapse the 60/40 split rear seats. And the conveniently located automatic controls let you access your cargo options from the dash or rear cargo area.

Power liftgate. For simpler loading and unloading, control Murano®'s available power liftgate from your remote, the dashboard or a button on the hatch.

Power seats. Drop the rear seats and power them back up again, all from controls on the dash or in the rear cargo area.

Nissan Murano® Platinum AWD shown in Java Metallic with Cashmere Leather.

Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

NISSAN ADVANCED DRIVE-ASSIST® DISPLAY^{1, 2}

INNOVATION THAT UPGRADES YOUR PERSONAL SPACE.

Daily commutes, traffic jams and lattes. With all you've got going on, you can still focus on what's most important: driving. You can see all the info you need on a 7" color display for your eyes only. From turn-by-turn directions to caller ID or safety features, the Advanced Drive-Assist® Display lays it all right before your eyes — helping to minimize time looking away.^{1, 2, 3}

YOU'RE NOT JUST DRIVING, YOU'RE HOSTING.

In Murano,[®] you're in a unique social space designed to let everyone effortlessly connect, so whether you're on a quick errand or taking the scenic route, anyone you bring along can enjoy the ride. The wider center console allows everyone to mingle without leaning or straining. Meanwhile, you have enhanced visibility at the wheel, thanks to a higher driver's position and slimmer side pillars that give way to larger windows. And with meaningful technology within arm's reach of any seat, Murano[®] makes every drive an all-inclusive trip.

Nissan Murano[®] Platinum AWD shown in Mocha Leather with optional equipment.

¹Available feature. ²Driving is serious business and requires your full attention. Even with Advanced Drive-Assist[®] Display, only use phone or other communication devices when safe. ³Information displayed is dependent on vehicle is equipped. ⁴Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. ⁵Ward's middle cross/utility competitors segmentation. 2015 Murano vs 2014 and in market 2015 competitors. ⁶Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. Do not unfasten the rear center seat belt connector except when folding down rear seats.

Advanced Drive-Assist[®] Display. While passengers use their own screen, you can access the tech you need at every turn, on a 7" display.^{1, 2, 3}

Passenger-friendly screen. Access music and more with a tap or a swipe on the available 8" multi-touch control color monitor. Pinch and zoom navigation lets you zero in on your destination.⁴

Communication alley. A wider center console opens the way for all passengers to feel engaged.

Rear-seat perks. Rear heated seat switches,¹ plus a first-in-class rear USB port^{1, 5, 6} so rear passengers can charge their smartphone, play their music, and more.

28<sup>MPG
HWY¹</sup>
260^{HP}
240^{LB-FT}
TORQUE

BECAUSE YOU LIKE YOUR POWER POLISHED.

Power, courtesy of a 3.5-L V6 engine. Murano®'s 260-horsepower 3.5-liter V6 engine keeps you ahead of the pack when you need to be. An efficient fuel economy of 28 MPG on the highway keeps it practical.¹ Of course, it doesn't hurt to have aerodynamics that achieve a drag coefficient of 0.31 – comparable to some sports cars.

Efficiency, brought to you by the Next-Generation Xtronic CVT® transmission. Unlike conventional automatic transmissions, the “virtually gearless” Xtronic CVT® transmission makes gear-hunting a thing of the past. Fully variable gear ratios mean it can hold the engine at the ideal rpm, giving you a wave of power when you need it, and achieving quiet, efficient cruising when you don't.

Smoothness, thanks to Intelligent Cruise Control (ICC). Helps you keep a safe distance by using radar technology to maintain a preset distance from the car ahead in your lane, even at low speeds. And if the car ahead slows down enough to require you to brake, it also gives you an audible and visual alert.²

¹2015 EPA fuel economy estimate of 28 highway MPG for 2015 Murano.® Actual mileage may vary with driving conditions – use for comparison only. ²Intelligent Cruise Control is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident.

CONTROL THAT DOESN'T MISS A BEAT.

Intuitive All-Wheel Drive. Just because the terrain varies doesn't mean the evenness of your ride has to. The second you pull away, Murano®'s available intuitive AWD turns on, delivering power to both front and rear wheels for improved grip. Once you're up to speed, no sense powering all four wheels, so Nissan Murano® efficiently sends the power all up front. Then, for enhanced cornering control and traction, intuitive AWD compensates by transferring some of that power from the front wheels to the rear. Because as conditions change, it's important to feel connected to the road.

Nissan Murano® Platinum AWD shown in Pearl White with Roof Rail Crossbars and optional equipment.

NISSAN AROUND VIEW® MONITOR^{1, 2}

IF YOU WANT PARKING ANY EASIER, YOU'LL HAVE TO VALET.

What if parallel parking was easier? A rearview camera is great when backing up – but when it comes to parking, it's nice to see more than just what's directly behind you. That's why Murano's Class-Exclusive Around View® Monitor^{1, 2} uses four cameras that give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.³ And since all obstacles aren't stationary (shopping carts, we're talking to you), Moving Object Detection helps keep an eye around your Murano®, and can warn you about moving objects detected in your vicinity.⁴

¹Available feature. ²Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. ³Virtual composite 360° view. ⁴MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle.

RIGHT ON THE NOSE

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up – without going too far.

COMPLETE THE PICTURE

Located under your driver's side mirror, this camera helps round out your virtual 360° bird's-eye view, whether you're in Drive or Reverse.³

SPARE YOUR WHEELS

In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

BACKGROUND SAVVY

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with smaller objects that might be hidden below your window.¹

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

What if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies are designed to help monitor conditions. Like a warning to let you know you're straying from your lane, or a system that helps ensure you're travelling on properly inflated tires.

Available Features

Predictive Forward Collision Warning (PFCW)¹

Forward Emergency Braking (FEB)²

Blind Spot Warning (BSW)³

Rear Cross Traffic Alert (RCTA)⁴

Moving Object Detection (MOD)⁵

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control⁶ helps you maintain your steered path. **Traction Control System** helps reduce wheelspin in low-traction situations. **Anti-lock Braking System** helps you maintain steering control around obstacles while braking heavily. **Electronic Brake force Distribution** sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back. **Brake Assist** helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.⁷

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.⁸

Seven Standard Air Bags⁸
LATCH System (Lower Anchors and Tethers for Children)

7 Standard Air Bags.⁸ Nissan Advanced Air Bag System has dual-stage supplemental front air bags with seat belt and occupant-classification sensors.⁸ Murano® now also features a driver supplemental knee air bag.⁸ In addition, Murano® features front seat-mounted side-impact supplemental air bags,⁸ and roof-mounted curtain side-impact supplemental air bags with rollover sensor.⁸

Tire Pressure Monitoring System (TPMS) with class-exclusive Easy-Fill Tire Alert^{9, 10, 11} TPMS lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you've reached the correct pressure.

snug-kids™ Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: an industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at **NissanUSA.com/SnugKids**.

Looking for the right CRS for your Nissan? Watch this video first at **bit.ly/NissanSnugKids**

¹PFCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. ²FEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. ³Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. ⁴Not a substitute for proper backing procedures. May not detect all moving vehicles. Speed and other limitations apply. See Owner's Manual for details. ⁵MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. ⁶VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. ⁷Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to be in control of the vehicle at all times. ⁸Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details. Inflated air bags shown for illustration purposes only, actual coverage area may differ. Air bags deflate after deployment. ⁹TPMS is not a substitute for regular tire pressure checks. ¹⁰Ward's middle cross/utility competitors segmentation. 2015 Murano vs 2014 and in market 2015 competitors. ¹¹Vehicle must be on for the Easy-Fill Tire Alert to operate.

NISSAN SAFETY SHIELD TECHNOLOGIES™

GET AWAY WITH JUST A WARNING.

What if extra reassurance was easy to spot? Whether you're changing lanes on the highway or deftly maneuvering your way into a parking spot, Murano®'s available Safety Shield Technologies™ offer you a safety suite of advanced systems that help you keep an eye out all around you, watch the flow of traffic and think ahead, so you're prepared to respond.

Predictive Forward Collision Warning. In traffic, it only takes a moment to get caught off guard in a potentially dangerous situation. How about a little help? With this technology, a radar sensor on the front of Murano® constantly monitors not just one vehicle ahead in your lane, but two. When the system detects sudden deceleration, it gives you an audible warning and a visual signal on the instrument panel. So you get a heads up, even if you can't see what's slowing you down.¹

Forward Emergency Braking. Using radar technology to keep an eye on your speed and proximity to vehicles ahead of you, Forward Emergency Braking gives you audible and visual display warnings to help you know when to reduce your speed, if necessary. It can also apply braking to help you avoid a collision. If a collision is unavoidable, this feature will automatically engage the brakes to help reduce speed of impact and reduce the severity of a collision.²

Blind Spot Warning. If another vehicle is detected in the blind spot area, an indicator appears in the driver's or front passenger's door pillar and on the Advanced Drive-Assist® Display. Then, if you put your turn signal on, the indicator flashes with a warning chime.³

Rear Cross Traffic Alert. When you're backing out of a parking space, this available feature watches the area around the rear of your Murano®, and can warn you about vehicles you might not see behind you approaching from either side. So backing up feels easier than ever.⁴

RearView and Around View® Monitors. When you're in Reverse, the RearView Monitor shows what's directly behind you and helps make backing up and parking easier. And the Around View® Monitor uses four cameras to give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curb-side views, so you can see where you're going without second-guessing.^{6, 7}

¹PFCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. ²FEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. ³Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. ⁴Not a substitute for proper backing procedures. May not detect all moving vehicles. Speed and other limitations apply. See Owner's Manual for details. ⁵AVM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁶Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. ⁷Virtual composite 360° view.

BUYING/OWNING

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

College Grad Program. Ask about our special new vehicle pricing available to individuals up to two years after graduation.

Active and Reserve US Military Program. Ask about our fixed discount on new vehicle pricing available to those serving our country.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile (whichever occurs first) basic coverage and 5-year/60,000-mile (whichever occurs first) powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus® For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus® This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan Mobility Assist. This program offers reimbursements toward the purchase and installation of certain mobility assistance products for program-eligible Nissans. Go to **NissanUSA.com/mobility** for more info.

Nissan's environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100% electric LEAF.® Improving fuel efficiency through our PUREDRIVE™ measures. And reducing the environmental impact of manufacturing, as seen at our new, energy-efficient, low-emissions paint plant in Tennessee. For more information, log on to **NissanUSA.com/green**
